

Recycling Ballasts

Safety Instructions

- If ballasts leak, don chemical resistant gloves, safety glasses and use chemical spill kit

Directions

1. Ballasts are to be kept separate from other batteries and electronics.
2. Ballasts will be kept in marked **black 30 gallon drums**.
3. When **black 30 gallon drum is half full**, inform supervisor/manager so that Heritage Crystal Clean can be contacted to arrange pick up

Minimum Frequency

1. Ballasts
Drum shall be inspected at least **monthly**; more often depending on usage.
2. Ballasts
Drum shall be emptied at least **annually**; more often depending on usage.
