

# Recycling Aerosol Paint Cans

## Safety Instructions

1. Wear safety goggles when working with aerosol paint cans
2. For Paint cans only. Do not use other aerosols or accelerants.

## Directions

1. Use the AeroSolv to puncture and empty paint cans
2. After draining paint, place empty punctured paint cans into marked Red 30 gallon trash can
3. Red 30 gallon trash can should have no liner
4. When **red 30 gallon container** is  $\frac{3}{4}$  full, inform supervisor/manager
5. Empty Cans will be taken to Republic recycle dumpster at the corner of Prospect Ave and Francis
6. When **black 55 gallon paint drum** is  $\frac{3}{4}$  full, inform supervisor so that Heritage Crystal Clean can be contacted to arrange pick up. Bill of lading will be turned into Associate Director.

## Minimum Frequency

1. Paint drum  
Paint drum shall be emptied at least **annually**; more often depending on usage.
2. Can container  
Can container shall be emptied at least **monthly**; more often depending on usage
