

Recycling Scrap Metal

Safety Instructions

- Items must be safe to dispose -- any coolant or other hazardous materials must be removed first.

Directions

1. Steel, Copper and Brass Scrap are stored in separate containers.
2. Metal Scrape will be kept in marked **Blue 30 gallon containers**.
3. When blue 30 gallon containers are half full, inform supervisor/manager. Container(s) will be taken to Behr Iron & Metal. Proceeds and manifest will be given to Associate Director.

Minimum Frequency

1. All scrap metal types
Containers shall be inspected at least **monthly**; more often depending on usage.
2. All scrap metal types
Containers shall be emptied at least **annually**; more often depending on usage.
